Subject	Apology letter for made mistake

Respected sir,

I am Twinkle Chavhan. I am working at your company Tops Technology as a Frontend Developer.

I want to inform you that I made a mistake in a task assigned by you that is Registration Form Validation. In which I forgot to add a pop-up message for showing error in case of invalid mobile number. I assure you that I will fix that as soon as possible and will not be repeated. I am really sorry.

I hope you forgive me for that.

Yours sincerely,
Twinkle Chavhan
